SUMMARY

Aspiring Full-Stack Developer with a strong foundation in Java, Spring Boot, Angular, and modern web technologies. Currently following a Bachelor of Information Technology (BIT) at the University of Colombo. Passionate about building efficient, scalable applications and continuously learning new technologies. Seeking an internship opportunity to apply my skills and contribute to innovative projects.

TECHNICAL SKILLS

- **Programming:** Java, JavaScript, TypeScript
- **Backend:** Spring Boot, Node.js, Express.js, RESTful APIs
- **Frontend:** Angular, Tailwind CSS, Bootstrap, HTML5
- **Databases:** MongoDB, MySQL
- **Tools:** Git, WordPress, Figma (UI/UX Design)

WORK EXPERIENCE

Toshiba Printer Installation & Network Configuration
JKOA Pvt.Ltd

2022 - 2024

- Installed and configured Toshiba printer systems for networked environments
- Provided technical support and ensured proper integration with client networks
- Troubleshoot connectivity issues and optimized printer performance

Hardware CCTV Operator
A Plus Technology Pvt.Ltd

2018 - 2019

- Managed computer hardware maintenance and CCTV system configurations
- Configured security camera networks and provided technical support

PROJECTS

Hospital Management System (Angular, Bootstrap)

- Developed CRUD-based patient management system with appointment scheduling features
- Created responsive user interfaces optimized for healthcare staff workflows

Library Management System (Angular, Bootstrap)

- Built application with book inventory and user account management
- Implemented responsive interfaces for administrators and library patrons

Charity Service Website (WordPress)

- Created donation platform with customized WordPress themes and plugins
- Implemented responsive design for optimal user experience across devices

Vehicle Service UI Design (Figma)

- Designed intuitive vehicle service booking interface focusing on user experience
- Created wireframes and high-fidelity mockups for streamlined service booking
